June 8
\$69 / \$79

Journey with Linda Koenig through some of St Louis' well-known and unknown gardens and galleries. **Laumeier Sculpture Park** is one of the few public sculpture parks in America. Enjoy a stroll among the giant sculptures. We'll visit the **Marianist Galleries** to view Brother Mel Meyer's wonderful works of art and to examine his ingenious sculptures. Did you know that one of America's most unique gardens is atop the 8th floor of **Children's Hospital**? Drive by the recently restored gardens of **Forest Park** including the beautifully landscaped **Pagoda Circle** planted with 20,000 perennials! Enjoy time at **Oak Knoll Park**, once the home of a wealthy St. Louis family is now home to the offices and exhibit hall of the **St. Louis Artists' Guild** and a formal garden. As always, Linda's knowledge and commentary makes this day educational and entertaining.

GRBIC the wonderful new Bosnian restaurant in the old Bailey's Farm Dairy will be our lunch stop. The restored interior of European folk art is as wonderful as the food. Lunch includes beef goulash served over spatzle, house salad, fresh bread and beverage.
